

Article history

KBPublisher keeps a history of all changes you make to the content of an article. When you update an article, you can add revision comments to easily track changes.

Revision comments:
Please add article revision comments for future reference.

Do not save revision for this time.

You can view earlier versions and compare them against the current version to see what has changed. You can roll back to earlier versions.

The screenshot shows the KBPublisher interface. At the top, there's a navigation bar with 'Articles' and sub-tabs: 'Articles', 'Drafts', 'Featured', 'Comments', 'Feedbacks', 'Glossary', 'Categories', and 'Template'. The main content area shows the article title '[52], System Requirements' and a 'History (5)' tab. Below the title, there are buttons for 'Edit', 'Details', 'History (5)', 'Comments', 'Feedbacks', 'Preview', 'Public View', and 'More'. A 'Delete all revisions' button is also present. The history table shows 5 records with columns for '#', 'Updated', 'Updater', and 'Comment'. The records are as follows:

#	Updated	Updater	Comment
7	21 hours ago	Smith J.	
6	6 years ago		Automatically created revision!
5	4 years 4 months ago		
4	4 years 4 months ago		Adding another item
3	4 years 4 months ago		

Article ID: 331
Last updated: 21 Jul, 2019
Updated by: Cherevko J.
Revision: 10
