

## How can I translate KBPublisher to another language?

---

To translate to other language you should copy directory kb/admin/lang/en and rename 'en' to translated language.  
Made all necessary changes in .ini files and in config\_lang.php  
Set your language in \$conf['lang'] variable in admin/config.inc.php  
(\$conf['lang'] = 'your\_language\_folder\_name');

We have made some special utilities, it will display some help information:

- [http://your\\_domain.com/kb/admin/lang/test\\_language.php](http://your_domain.com/kb/admin/lang/test_language.php)
- [http://your\\_domain.com/kb/admin/lang/display\\_language.php](http://your_domain.com/kb/admin/lang/display_language.php)

You can find a [available localizations](#) in download section.
