

Manage Drafts

To manage existing drafts or create a new one, select **Articles** or **Files** from the main menu and select the **Drafts** tab:

The tab lists all existing drafts. If the list is long, use the filter fields above the list to show just the drafts of a particular status, or the drafts with a certain word in their titles.

The **Status** column shows a color for each draft to indicate its status:

- gray = in progress
- yellow = waiting for approval
- red = rejected
- green = approved
- blue = completed (not required approval)

Click the actions icon in the **Action** column for a draft to perform one of these actions:

For drafts of **articles**:

- **Approve** - Appears if draft requires approval and you are an assignee (are allowed to approve or reject the draft).
- **Preview** - Display a preview of the draft to review.
- **Details** - Display details about the draft.
- **Edit** - Open the draft for editing.
- **Delete** - Delete the draft.

For drafts of **files** some extra options available:

- **Open** - Open the file in a browser if possible.
- **Download** - Download the file to a location on your computer.

Adding a draft

To add a draft of an article or file, click **Add new** on the relevant tab and complete the form that appears.

- For a description of the form for adding a draft of an article, see [Add an article](#).
- For a description of the form for adding a draft of a file, see [Add a file](#).

Approve a draft

If you are an assignee for a draft in its current workflow step you can

- [approve the draft](#) as-is and either publish it or move it to the next workflow step.
- edit the draft and save your changes before [approving it](#), as in the previous option.
- reject the draft so it returns to the author for further edits.
