

# The Lists Tab Explained

---

The **Lists** tab under the **Tools** menu allows you to:

- Manage article statuses
- Manage file statuses
- Control article types
- Manage user statuses
- Manage feedback subjects
- Manage rating comments statuses

## Article and file statuses

KBPublisher has three default article and file statuses: Published, Not published and Outdated.

Use the **Lists** tab to add new statuses and modify existing ones. You control:

- The name of the status
- The color denoting that status
- Description
- Where the status appears in the list of statuses
- Whether the status is active
- Whether or not this status is published (which means users can see it),

[Add new article status](#) tells you how to add a new status for an article.

## Article types

Article types are used to group records for searching, to provide default template for the articles and to control the display of the type.

[Add new article type](#) explains how to create new article types.

## User statuses

KBPublisher has four default user statuses: Active, Pending (approval required), Not active / Suspended and Unconfirmed.

Use the **Lists** tab to create new user statuses and modify existing ones. You control:

- The name of the status
- The color denoting that status
- Description
- Where the status appears in the list of user statuses
- Whether the status is active.

## Feedback subjects

There is an option on the [Ask a Question](#) screen that allows the user to specify a feedback subject from a drop-down list. You define these feedback subjects on the **Lists** tab. You control:

- The title, which is what the user picks from the feedback subject list
- Description
- Who gets the feedback question (i.e. the specified supervisor)
- Color associated with this feedback subject
- Order it appears in the list
- Whether the feedback subject is active.

## Article feedback status

Rating comments have four initially-defined statuses: New, Ignore, In progress and Processed. You control:

- The name of the status
- The color denoting that status
- Description
- Where the status appears in the list of statuses
- Whether the status is active.
